### Twilight Series

The author of the Twilight Series, Stephenie Meyer, is a homemaker and mother of three sons who lives in Phoenix, Arizona. Mrs. Meyer obtained the idea for her first book, *Twilight*, from a dream that she had in June 2003 about a vampire.

Her subsequent books, *New Moon*, *Eclipse*, and the soon-to-be-released *Breaking Dawn*, follow the relationship that develops in the first book between the teenage Bella and the handsome vampire Edward. Mrs. Meyer's books have drawn an immense following. Movie producers have taken notice and begun production on *Twilight* the movie.
